SAN CHHAYLY

FRONT-END DEVELOPER

PROFILE

Results-driven Front-End Developer with 2 years of experience building responsive and data-rich web applications. Expert in Next.js and Angular, with a passion for crafting elegant UIs using Ant Design and Tailwind CSS. Focused on delivering optimal user experiences, seamless API integration, and clean, maintainable code with TypeScript. Eager to apply my skills in dashboard development and performance optimization to create impactful user solutions.

WORK EXPERIENCE

Polygram solution

2024 – Present

Front-end Developer

- Spearheading the development of modern, user-centric web applications using Angular and TypeScript, significantly enhancing the digital experience for end-users.
- Translated UI/UX design wireframes into high-quality, responsive, and accessible code with **Angular Material and Tailwind CSS**, ensuring a consistent experience across all devices.
- Partner with cross-functional teams in an Agile setting to refine requirements, provide technical solutions, and deliver robust, scalable features ahead of schedule.

Wonderpass Technology

2023 - 2024

Front-end Developer

- **Boosted user engagement by 15%** by architecting and implementing interactive UI components with **Tailwind CSS**, leading to a more intuitive user experience.
- Seamlessly integrated **RESTful APIs** to enable dynamic data handling and real-time user interactions, reducing data loading.
- Championed the adoption of **TypeScript** across two major projects, increasing code quality and reducing runtime errors.
- Accelerated feature development and team workflow by utilizing **Git for version control** in an Agile environment, collaborating closely with UI/UX designers and backend developers.
